Application for certification for the welding of railway vehicles and components according to EN 15085-2

Name of welding manufacturer:

Street, no.:
Postcode, town/city, state:
Telephone: Fax:
Email: Internet:
Owner: Technical plant manager:

Contact for questions:
The application is submitted for the welding facility (if other than above):
Street, no.:
Postcode, town/city:

Certification level applied for:
☐ CL 1
☐ CL 2
☐ CL 3
☐ CL 4, for:
☐ Design of welded railway vehicles and parts of certification level:____
☐ Purchase and assembly of welded parts of certification level:_____ (please complete only the applicable items from the description of the facility)
☐ Purchase & resale of parts of certification level:____

Application:
☐ initial application
☐ renewal application, current certificate expires on: __________
☐ because of a modification in the following conditions: __________________________

Do/did you have a certificate pursuant to DIN 6700-2 / EN 15085-2 issued by another manufacturer certification body?
☐ Yes (please state body):
☐ No

The welding manufacturer
- declares its compliance with generally accepted rules of technology (EN 15085 series of standards and other applicable standards),
- agrees that the information is included in the EN 15085 Online Register,
- submits to the annual verification.

Annex: ☐ Organization chart

(Place, date) (Stamp and signature)
Description of the facility – Certification for welding according to EN 15085-2

The above facility demonstrates its qualification for welding by furnishing the following information/documents:

1 Staff

1.1 Number of staff in the technical office: ___

1.2 Number of staff in the workshop: ___

1.3 Permanent welding staff: ___

1.3.1 Welding coordinators: ___

1.3.1.1 Responsible welding coordinator:

First name, family name: ____________________________________________________________

Date of birth: _________________________________________________________________

Area of competence: ___________________________________________________________

Professional training 1):

Welding training 1):

Is the responsible welding coordinator to be classified as "external"?

☐ Yes

☐ No

Does the welding coordinator also act as welding coordinator for other facilities?

☐ Yes – please indicate number _______ and enclose certificates.

☐ No

1.3.1.2 Deputy welding coordinator:

First name, family name: __________________________________________________________

Date of birth: _________________________________________________________________

Area of competence: ___________________________________________________________

Professional training 1):

Welding training 1):

1) Please indicate the designation of the profession and enclose evidence of qualifications (copies of certificates) as well as a table showing the previous occupations.
Is the deputy welding coordinator to be classified as "external"?
- Yes
- No

Does the welding coordinator also act as welding coordinator for other facilities?
- Yes – please indicate number _______ and enclose certificates.
- No

1.3.1.3 Additional deputy welding coordinator:
- First name, family name:
- Date of birth:
- Area of competence:
- Professional training 1):
  
  
  
  
Welding training 1):
  
  
  

1.3.1.4 Additional deputy welding coordinator:
- First name, family name:
- Date of birth:
- Area of competence:
- Professional training 1):
  
  
  
  
Welding training 1):
  
  

1) Please indicate the designation of the profession and enclose evidence of qualifications (copies of certificates) as well as a table showing the previous occupations.
1.3.2 Description of the tasks and areas of competence of the welding coordinators pursuant to EN ISO 14731: Yes / No

1.4 Welder(s) / welding operator(s) for the range of certification applied for

<table>
<thead>
<tr>
<th>Welder's sign</th>
<th>Name 2)</th>
<th>Designation according to welder / welding operator qualification test standards</th>
<th>Dimensions (t_{min}-t_{max}, D_{min}-D_{max})</th>
<th>Date of test</th>
</tr>
</thead>
</table>

2) As an alternative to listing by name, it is also possible to state the number of welder / welding operator qualification tests for the individual welding procedures and material groups.

1.5 Visual inspectors and NDT inspection staff

<table>
<thead>
<tr>
<th>Name 3)</th>
<th>Qualification acc. to EN 473</th>
<th>Inspection authority</th>
</tr>
</thead>
</table>

3) As an alternative to listing by name, also the number of inspection staff for the individual inspection and testing procedures may be stated. Evidence of training must be submitted during the site inspection.
Evidence of WPS according to the EN ISO 15609 series of standards, the EN ISO 14555 or the EN ISO 15620 for the range of certification applied for

<table>
<thead>
<tr>
<th>WPS no.</th>
<th>Welding process</th>
<th>Material group</th>
<th>Type of weld</th>
<th>Dimensions (t, D in mm)</th>
<th>Position</th>
<th>Evidence ⁴)</th>
<th>Comments</th>
</tr>
</thead>
</table>

⁴) Evidence by welding procedure qualification record e.g. according to DIN EN ISO 15614-1 or DIN EN ISO 15614-2; production weld test according to DIN EN ISO 15613.
3 Quality requirements according to EN ISO 3834-2

3.1 Description of the quality requirements according to EN ISO 3834

The manufacturer demonstrates compliance with Part 2 (delete as applicable)

<table>
<thead>
<tr>
<th>Quality requirements according to EN ISO 3834</th>
<th>Description 5)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Review of requirements, technical review:</strong></td>
<td></td>
</tr>
<tr>
<td>Does the manufacturer have fixed rules for performance and responsibility?</td>
<td></td>
</tr>
<tr>
<td><strong>Subcontracting:</strong></td>
<td></td>
</tr>
<tr>
<td>Can it be demonstrated that subcontracting is performed as required by DIN EN ISO 3834?</td>
<td></td>
</tr>
<tr>
<td><strong>Equipment:</strong></td>
<td></td>
</tr>
<tr>
<td>Is the proper functioning, accuracy and compliance of equipment with industrial safety requirements verified regularly?</td>
<td></td>
</tr>
<tr>
<td><strong>Quality assurance:</strong></td>
<td></td>
</tr>
<tr>
<td>- Is the welding staff instructed regularly on the technical bases of welding quality criteria?</td>
<td></td>
</tr>
<tr>
<td>- Does the manufacturer have fixed rules for monitoring, inspection and testing before, during and after welding?</td>
<td></td>
</tr>
<tr>
<td>- Are inspectors and/or staff with defined inspection and testing tasks deployed for the welding quality assurance?</td>
<td></td>
</tr>
<tr>
<td>- Which steps are taken in case of non-conformances?</td>
<td></td>
</tr>
<tr>
<td>- Are quality records maintained? How are the quality records evaluated and filed?</td>
<td></td>
</tr>
<tr>
<td><strong>Identification and traceability:</strong></td>
<td></td>
</tr>
<tr>
<td>What is done to assure the identification of components and subassemblies in all phases of cutting, preliminary assembly and assembly?</td>
<td></td>
</tr>
</tbody>
</table>

5) If available, describe the manufacturer's rules, if not, enter "not applicable".
4 Technical equipment

4.1 Welding machines, devices and equipment for the performance of welding work

<table>
<thead>
<tr>
<th>Quantity</th>
<th>Type of machine</th>
<th>Model / performance data</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
### 4.2 Equipment for the inspection and testing of welds

<table>
<thead>
<tr>
<th>Quantity</th>
<th>Kind of equipment</th>
<th>Manufacturer</th>
<th>Model / parameter</th>
</tr>
</thead>
</table>

### 4.3 Other facilities, machines and systems required for the welding equipment (e.g. for heat treatment)

<table>
<thead>
<tr>
<th>Quantity</th>
<th>Kind of equipment</th>
<th>Model / parameter</th>
</tr>
</thead>
</table>
5  Range of certification applied for

5.1  Scope
The evidence is furnished for certification level ___ and the subassemblies
   - (please list) ____________________________________________________
   - _________________________________________________________________

Weld performance class(es) __________
with / without design

5.2  Welding processes, materials, dimensions, comments:

<table>
<thead>
<tr>
<th>Welding process according to EN ISO 4063</th>
<th>Material group according to CEN ISO/TR 15608</th>
<th>Range of dimensions</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

6  Evidence of manufacturer's qualifications
(e.g. EN ISO 9001; EN ISO 3834-2,-3,-4; DIN 6700-2/ EN 15085-2) 6) Please enclose copies
